

8 March 1952

Memorandum for: Deputy Director (Administration)

From: Legislative Counsel

Subject: CIA Construction
Weekly Report No. 8

1. The House Public Works Committee has concluded hearings on bills related to the Nevius tract. It is believed that some legislation will be reported in order to avoid the tract being declared surplus and therefore subject to sale. However, it is believed that the Smith Bill to return the land to private ownership will not be accepted. The Subcommittee Chairman is reported planning a bill to turn the tract over to the National Capital Parks and Planning Commission.

2. The Public Buildings Service has submitted its plans to CIA for construction on the Nevius tract, and will also have plans available shortly for construction at the Old Soldiers Home.

Memorandum for: Deputy Director (Administration)

From: Legislative Counsel

Subject: CIA Construction
Weekly Report No. 7

25X1

2. It is understood that plans for construction on the Nevius tract were to be available on 1 March in order to determine whether a suitable building can be constructed on that property. There have been press indications, however, that as a result of Congressional hearings on utilization of the Nevius tract there may be a disposition to turn the property over to the National Capital Park and Planning Commission for construction of appropriate monuments or parks. DD/A had planned to discuss this matter with Commissioner Reynolds.
